

# A Lecture Series with Dr. Nick Begich

Best Western Kodiak Inn Harbor Room  
Friday & Saturday, September 14 & 15 - 2007

## • Session One •

Friday, September 14, 2007  
2.5 hours 7p - 9:30p

**Controlling the Human Mind:  
A Brave New World or  
Enhancing Human Performance?**

Manipulation of the mind, emotions and physical health of people through new applied technologies continues to draw the attention of military planners around the world. The most startling advances in this area of technology for both military and private sector uses are presented. This session will provide in-depth information, hands-on technology demonstrations, background and forecasts in the development of these areas. Enhancing human performance or controlling human outcomes will be the challenge of this century, raising serious questions on the ethics of the science of mind control. Control of the human mind by external means is now a reality -- how we use this technology is the next challenge for this generation. Also discussed is the background and history of mind control and the advances being applied to enhance human performance. Both sides of the issue are explored and developed in depth.

## • Session Two •

Saturday, September 15, 2007  
Two hours. 10a -12 Noon  
**Technology in the 21st Century**

Nick is lecturing this year on military technologies and new breakthroughs in healing technologies that are emerging. He has been lecturing and conducting workshops in alternative health issues demonstrating a number of energy technologies to improve human performance. He is also discussing the impacts of our technologies on humankind and the planet in the 21st century. The material presented includes cell phone safety, underwater sonars, mind control technologies and more. The lecture concludes with solutions that could be initiated in the next few years that could change the implications of these technologies from negative to positive. This lecture carries a message about our humanity and our reach toward higher purposes. These new technologies attack the very essence of who we are - they attack the very foundation of our being by wounding the human spirit. This lecture is about both the issues surrounding new technology and sane solutions.

## • Session Three •

Saturday, September 15, 2007  
Two hours. 2p - 4p  
**Earth Changes - The Ripple  
Effect - Alaska Sounds the Alarm**

Arctic and Antarctic regions of the world are being profoundly affected by earth changes. The arguments over man-made or natural causes continue to be debated - but what can not be denied is --things are changing regardless of the cause! This lecture addresses many of the issues facing all of us as residents and stewards of planet earth. Dr. Begich presents his personal experience and knowledge combined with the latest research on these subjects. Climate changes, earthquake increases, pole reversals and pole shifts are discussed using Alaska as an example of the changes now taking place. In addition energy policy and alternatives are discussed, as well as the economic/political issues related to earth changes. Energy policy issues are also discussed in terms of strategies that might be applied to state, national and international energy matters.

**Admission at the door : \$15 each lecture / 2 for \$25 • All three sessions \$40 / couple \$60**

# Dr. Nick Begich

Dr. Nick Begich is the eldest son of the late United States Congressman from Alaska, Nick Begich Sr., and political activist Pegge Begich. He is well known in Alaska for his own political activities. He was twice elected President of both the Alaska Federation of Teachers and the Anchorage Council of Education. He has been pursuing independent research in the sciences and politics for most of his adult life. Begich received his doctorate in traditional medicine from The Open International University for Complementary Medicines in November 1994.

He co-authored with Jeane Manning the book *Angels Don't Play This HAARP; Advances in Tesla Technology*. Begich has also authored *Earth Rising – The Revolution: Toward a Thousand Years of Peace* and his latest book *Earth Rising II– The Betrayal of Science, Society and the Soul* both with the late James Roderick. He is also the editor of *Earthpulse Flashpoints*, a new-science book series. Begich has published articles in science, politics and education and is a well known lecturer, having presented throughout the United States and in nineteen countries. He has been featured as a guest on thousands of radio broadcasts reporting on his research activities including new technologies, health and earth science related issues. He has also appeared on dozens of television documentaries and other programs throughout the world including BBC-TV, CBC-TV, TeleMundo, and others.

Begich has served as an expert witness and speaker before the European Parliament. He has spoken on various issues for groups representing citizen concerns, statesmen and elected officials, scientists and others. He is the publisher and co-owner of Earthpulse Press and is also under contract as Tribal Administrator/Village Planner for the Chickaloon Village Council, a federally recognized American Indian Tribe of the Athabascan Indian Nation. Begich also serves as Executive Director of The Lay Institute of Technology, Inc. a Texas non-profit corporation.

Dr. Begich is married to Shelah Begich-Slade and has five children. He resides just north of Anchorage in the community of Eagle River, Alaska, USA.
